

SiniSlot Booking (sinislot.shop) is booking software for Malaysian small businesses. It is not gambling.

Prepared by SINI SLOT SOLUTION (SSM 202603072528 · NS0320440-X), Malaysia, for the trust & safety, integrity and advertiser-support teams of Meta (Facebook, Instagram, Threads, WhatsApp), TikTok, Google (Search, Ads, YouTube), LinkedIn and URL-classification providers.

In one paragraph. SiniSlot is a free WhatsApp booking, ordering and payment system: a salon, home kitchen, homestay or online seller shares one link, customers pick a time slot or a menu item and pay the business with FPX online banking. There are no games, no stakes, no prizes and no winnings anywhere in the product. The name is Malay: *sini* means “here” and a *slot* is a booking time slot, so SiniSlot means “book your slot here”. An unrelated Indonesian online-gambling network uses the same word (sinislot.com, sinislot.bet, sinislot.win, officialsinislot.com). We have no connection to it, and we believe automated systems are attributing its activity to us.

What we ask: review our accounts, domain and ads manually, remove any gambling classification, and restore normal distribution (recommendations, search, link sharing and ad delivery).

3. Why SiniSlot cannot be a gambling service

Test	SiniSlot
Games of chance, betting, lottery, casino or slot machines	None. The product has no game of any kind.
Stakes, deposits for play, credits, prizes or winnings	None. The only money flow is a customer paying a business for a service, food, a room or a product, then a payout to that business's bank account.
Gambling businesses as users	Prohibited by our Terms. We close accounts that break this rule.
Payment gateway	Billplz Sdn Bhd (1023853P). Billplz's User Agreement lists " <i>Gambling, sports betting, lotteries</i> " as prohibited businesses, and Billplz issues customer receipts in our registered name, SINI SLOT SOLUTION (202603072528).
Other payment providers that verified us	Stripe (platform account in the name SINI SLOT SOLUTION, Malaysia). Merchant documents are in the private appendix.
Messaging	Booking confirmations run on Meta's WhatsApp Business Platform, whose policies prohibit gambling. Our Facebook Page has Meta Verified.
Google Safe Browsing	"No unsafe content found" for sinislot.shop (checked 10 October 2026, Figure 6).
Independent listings	G2, Product Hunt, SaaSHub, AlternativeTo and Wikidata (Q141678353), all describing SiniSlot as booking software.
The only game we link to	caturmelayu.sinislot.shop : a free, browser-based version of Catur Melayu, traditional Malay chess. It has no accounts, money, credits or prizes (Figure 7).

6. What we have changed to avoid confusion

- Explained the meaning of the name and listed our only official accounts on the About page (10 October 2026).
- Added an explicit gambling prohibition to our Terms (10 October 2026).
- Use "SiniSlot Booking" as the public profile name and always pair the brand with what it does.
- Publish machine-readable disambiguation (schema.org disambiguatingDescription, sameAs, lms.txt) so search and AI systems can separate the two brands.

- Do not use gambling-adjacent words in our content (jackpot, menang, gacor, free credit, spin and similar).

7. Declaration

I confirm that the information in this dossier is true. SINI SLOT SOLUTION does not operate, promote or accept payments for gambling of any kind, and has no relationship with any website or account offering gambling under the SINISLOT name. We will answer any question and provide further documents on request at support@sinislot.shop.
